

ConneXions Ongoing Projects

The “*Glimpse*” Project

Context: Team, Individual

Focus: Community, Competencies

Communication is essential to effective ministry and strong relationships.

This project has **two parts**:

1. **Team**—team members will develop a growing desire to work on their communication by choosing one of the following options to be displayed during a Sunday morning meeting *once every module*:
 - a. Create a video vignette of life in ConneXions.
 - b. Make an animated slideshow of life in ConneXions and present it creatively.
 - c. Produce a skit that reveals life in ConneXions. Perform the skit in front of the entire church.
 - d. Another creative suggestion of your choice (needs approval by Director)

*All presentations should be between three to five minutes long.
2. **Individual**—you will each be required to share in front of the church for five minutes on a Sunday night.
 - a. Share a brief teaching, exhortation, or testimony.
 - b. Those that have already done something like this will be asked to share on Sunday morning or to do an entire message on Sunday night.
