

# ConneXions Ongoing Projects

---

## Personal Archive

**Context:** Individual

**Focus:** Competencies

Every project and every hand-out will need to be filed in a folder that will be given to you. You must organize this folder and keep a print-out of all of your work as well as the original project sheets in an orderly system in your folder.

All of the notes that you take (and you *will* take them) will be stored within this same folder.

Inspections of folders will occur randomly.

You will be given one folder for each of the three modules.

Your folder will be viewed by your Pastoral Coach and checked for orderliness...this will also help your Pastoral Coach to understand what you are learning and/or struggling with.
